AGRICULTURAL STUDENTS

REGISTERING NOW

The school of Agriculture at Olds
closed on March 25, and scarcely
had the students returned to their
respective homes than applications
began to come in to Principal
Elliott for next year. In one week
four applications were received,
and literally dozens of letters are
being received asking for information
with regard to the course, and
also for particulars as to the cost
of same. So as to give the students
an idea as to what next year's
work will be, we might state that
the course as put on at the school
of agriculture is designed to be
thoroughly practical. The schools
are operated by the Provincial
Government and are entirely free,
with the exception of the board
and lodging, which students have
to care for themselves. All homes
where students board must register
with the Principal of the school,
and students will be permitted
to board in homes that are registered.
Board and room may be

Oliver, April 16—Tenders were
called today for the new government
owned internal storage elevator to
be built at Calgary, which are to
be in by noon June 1, 1914. The
new elevator which is modelled
after those which the government

is erecting in Moose Jaw and
Saskatoon will have a capacity
which can be easily increased if
necessary. The elevator will be
thoroughly modern in every re-
spect and will be fitted with every
variety of cleaning apparatus for
grain. The estimated cost is from
a million to a million and a half
dollars. Plans and specifications
can be secured from the chief
engineer of the grain commission,
whose offices for the time being
are located in Saskatoon.

New York, April 17—A fire that
swept through a first-class apart-
ment house at 714 Eighth Avenue
early today claimed ten victims
and wounded many others. The
fire, which broke out in the third
floor, spread rapidly, and a woman,
who was in the room, was killed.
The fire was caused by a short
circuit in the wiring. The building
is one of the finest in the city,
and the loss is estimated at \$1,000,000.

The States and Mexico

CUSTOM HOUSES WILL BE
SEIZED

Washington, April 20.—At 10
hours, possibly less, the United
States government will have taken
possession of the Mexican custom
houses at Tampico and Vera Cruz.
Detailed plans for landing of
marines at these two important
coast towns were completed at a
conference at the White House
between President Wilson, Secre-
taries Bryan, Garrison and Daniels,
Major General Wood, and Rear
Admirals Blake and Blue and John
Lind.

No orders to the army and
navy will be issued tonight, as
the announcement made after the
conference, action temporarily be-
ing deferred until congress acts on
the joint resolution approving the
president's purpose of using the
armed forces of the United States
to enforce its demands against
Huevos growing out of the arrest
at Tampico of American blue-
jackets.

The resolution passed the house
tonight by a vote of 35 to 37,
after a spirited debate. For several
hours it was considered by the
senate foreign relations committee
with prospects of an all-night ses-
sion of the senate, or a recess until
early morning.

Persons who were in touch with
the president said the steps which
might be taken by the United
States "short of war" were of
nature which would not require
formal notification to the powers
in the same sense as a declaration
of blockade or other preliminaries
of war. Foreign governments will
be kept informed of developments,
however. The debate in the house
brought out the fact that while the
navy would probably block Mexico
off from the commerce of the
United States, it would not inter-
fere with the passage to and fro
of foreign vessels, though cargoes
discharged on shore might be held
at customs houses if they were oc-
cupied by American forces.

The joint resolution justifying
the employment of the armed forces
of the States in enforcing certain
demands on Mexican authorities.
Resolved by the senate and house
of representatives in congress as-
sembled, that the president of the
United States is justified in the
employment of armed forces of the
United States to enforce the de-
mands on Mexican authorities.
Resolved by the senate and house
of representatives in congress as-
sembled, that the president of the
United States is justified in the
employment of armed forces of the
United States to enforce the de-
mands on Mexican authorities.

CALGARY EXPRESS
COLLIDES WITH FREIGHT

Between \$25,000 and \$100,000
damages resulted, it is estimated,
when the Calgary express which
leaves Edmonton at 11:30 at night
had a head-on collision at Nisku,
10 miles south of Edmonton, with
a freight train. The freight train
was bound for Calgary at 12:15
Sunday morning. No one was
injured, but seven cars on the
freight, loaded with lumber, were
damaged and both engines were
reduced to scrap.

The accident was due to the
fact that Freight Engineer Wil-
fred Bradley's watch was seven
minutes slow. He expected to
get into the siding at Leduc five
minutes clear of the passenger
train, as the rules call for. A
comparative of the time recorded
by trainmen's watches, made
shortly after the collision showed
that Bradley's was slow. The
engineer is one of the most trust-
worthy employees of the company.

The express was running slow-
ly at the time of the accident and
had almost stopped when the
freight, travelling at the rate of
16 miles an hour, crashed into it.
The engine crows of both trains
jumped and escaped with minor
scratches.

is erecting in Moose Jaw and

HOTEL BUILDING BLOWN UP IN SASKATCHEWAN

Village of Macdon was scene of one
of the most horrible tragedies of the
West. Many Lives Lost.

Macdon, Sask., April 20.—At
least 11 persons were killed or
crushed, and nine seriously in-
jured in the explosion of the gas-
plant at the Macdon hotel shortly
after noon today.

The gas plant is situated in the
basement directly underneath the
dining-room. At noon there were
many men in the room and
when, following the explosion, the
whole diningroom fell into the
cellar, these were precipitated be-
low, crushed by the wreckage
from the walls and floor above.

The wreckage took fire and pre-
vented rescue, and it is said that
at least ten were burned in this
disaster. The injured, who were
taken from the scene of the disas-
ter, were rushed to Estevan on the
local passenger train and were
placed in a hospital.

There is no doubt as to the death
of four Estevan men of a telephone
company. Peter Janyer, Alfons
Monzie, Nicholas Katzman and
Joseph Miller, all not yet account-
ed for, while running away from
Janyer and Katzman commercial travel-
ers missing.

Of the injured, David M. Bal-
lock is representative of McMaster
& Watts, Winnipeg.
The hotel is situated about thirty
miles north-west from Ponoka, where
the railway crosses the river. There
is a crematorium located (14) miles
from the scene of the disaster. It
is situated one (11) miles from the
nearest Post-office at Chesterfield,
and one and one half (1 1/2) miles from
the nearest School and Church.
Thirty (30) acres of the said land have
been broken, but have been allowed
to run back. About thirty (30) acres
of the said land is now lying, the rest
being covered with a growth of
timber and jackpine brush and tim-
ber. The land is owned by the
Macdon Hotel Co., which is a
joint venture of the Macdon Hotel
Co. and the Macdon Hotel Co. The
land is owned by the Macdon Hotel
Co., which is a joint venture of the
Macdon Hotel Co. and the Macdon
Hotel Co. The land is owned by the
Macdon Hotel Co., which is a joint
venture of the Macdon Hotel Co. and
the Macdon Hotel Co. The land is
owned by the Macdon Hotel Co.,
which is a joint venture of the Macdon
Hotel Co. and the Macdon Hotel Co.

The hotel building, together
with an adjoining butcher shop,
was completely destroyed, and it
was a great difficulty to get the
company's store across the street,
and Dr Mitchell's
drug store, was saved.

ELEVATOR WEIGHTS
CONTROL

Fort William, Ont., April 16.—
The Board of Grain Commission-
ers for Canada has made an im-
portant decision in connection
with special bunnings in country
elevators. The board has decided
that the weight shown on the
tickets shall govern, and not the
weights at the time of weighing.
Robert Finlay, stored grain in a
special bin of the elevator of the
town of Fort William, and when
the elevator was closed, he was
unable to get his grain out. He
therefore, applied to the board
for a ruling. The board has decided
that the weight shown on the
tickets shall govern, and not the
weights at the time of weighing.

The board has decided that the
weight shown on the tickets shall
govern, and not the weights at the
time of weighing. The board has

JUDICIAL SALE

OF
FARM PROPERTY

Pursuant to the Judgment and
Final Order for Sale, there will be
sold with the approbation of a Judge
of the Supreme Court of Alberta, at
the Master in Chambers, by Ogilvie
Lalor Webster, Auctioneer, at Ponoka,
Land Office, opposite the Post-office,
in the Town of Ponoka, at 2 o'clock
p.m., on Saturday, the 9th day of
May, 1914, subject to the conditions
and conditions in the original grant
from the Crown, or the original
certificate of title, the North-West
Quarter of Section Thirteen, Township
Forty-four (44), Range
Twenty (20), of the 5th Meridian
containing one hundred and sixty
(160) acres of land.

The Plaintiff is informed of the
following particulars:—
The land is situated about thirty (30)
miles north-west from Ponoka, where
the railway crosses the river. There
is a crematorium located (14) miles
from the scene of the disaster. It
is situated one (11) miles from the
nearest Post-office at Chesterfield,
and one and one half (1 1/2) miles from
the nearest School and Church.
Thirty (30) acres of the said land have
been broken, but have been allowed
to run back. About thirty (30) acres
of the said land is now lying, the rest
being covered with a growth of
timber and jackpine brush and tim-
ber. The land is owned by the
Macdon Hotel Co., which is a
joint venture of the Macdon Hotel
Co. and the Macdon Hotel Co. The

food.

AMERICA SEIZE VERA CRUZ

Vera Cruz, April 21.—Vera Cruz
tonight is in the hands of forces
from the United States warships
that the occupation of the port was
not accomplished without loss of
American lives.

Four American mine-sweepers and
six destroyers were killed by the fire
of the Mexicans, and twenty-one fell
wounded. The Mexican loss is
not known, but it is believed to
have been heavy. The water-front
and customs houses and all impor-
tant places, including those under
terminal works from which ex-
posed the railways to the city, had
been occupied.

The Mexican commander, Gen.
Lustar, Mass, offered a stubborn
resistance to the American advance.

COCKSHUTT
New
Jewel
Gang

Built entirely of steel and malleable iron, it has great
STRENGTH. Removable, dust proof bearings, heavy
shafts and triple plate mouldboards give it
great LASTING QUALITIES. Direct draft and the
manner of carrying the side pressure on the furrow
wheels make LIGHT DRAFT. The perfect foot lift,
automatic steering connection and adjustment
of furrow wheel make EASY HANDLING. The set of
shares and shape of the mouldboards insure per-
fect work and make the COCKSHUTT NEW JEWEL
the LEADER in its class. Call and look it over.

LOUIE STRATHGORN'S CAREER

Life Full of Romance and Suggestive

ness for Young Men

Don't think, the High Commission

of the Canadian Pacific, was one

of the world's great engine builders.

His life was full of romance and

suggestiveness for young men.

For thirty years he has been in the

world of labor with no one but the

engine and the engine builder.

Two thousand miles from his

home and from the life of the

engineer he built up a strong

and successful trade in the

mineralogical of the life of the

engineer. He is the representative

of the industry here. When

sign H.C. is sometimes read to mean

St. Louis, Mo., writes:

"I suffered terribly from

eczema of the hands. I

almost cried with the pain

A TRADE BALANCE ON WRONG SIDE

Mr. Edmund Walker's Comments—\$16,000,000 Sent Out of Canada For Iron and Steel Products Alone

One of the most widely noted features of the address of Mr. Edmund Walker, President of the Canadian Bank of Commerce, at the recent annual meeting of that institution, was his statement with regard to the large proportion of Canada's imports which consists of iron and steel in various forms, not only as raw materials but as manufactured goods.

"The total value is about \$16,000,000," he pointed out at that time, "these are articles used in building, or in equipping the country from the import of foodstuffs and other rapidly perishing objects. At the same time he regretted that the greater part of these iron and steel goods now imported in Canada now, as certainly will be the case in time. "To the extent to which, by making these goods in Canada, we could have lessened the debt represented by the securities we have sold to pay for the difference between imports and exports, we have burdened ourselves for a long time to come," he added, continuing: "While workers are being engaged in other things, as they have been in Canada, it may be said that they are not available for more work in iron and steel, but as soon as railroad and building seasons in volume, not in the aggregate but in proportion to other industries, we may hope that we shall be able to make in Canada the larger part of the iron and steel goods now imported. The increased output of our coal and iron mines, of our blast furnaces and of our manufacturing, which would result, would be of inestimable value to the country as a whole."

It is evident to every man who studies the iron and steel industry in Canada that no progress at all was made before a policy of direct encouragement for these industries was adopted by the Government of Ontario. Within the past few years this encouragement has been dropped to great measure and we have accordingly seen a big institution go into the hands of the receivers, while rumors that one or two others will follow it are prevalent. It is to be hoped that these are mere idle rumors and will not be realized. The bad condition of the iron and steel industry in Canada at present, coupled with the facts to which Mr. Edmund Walker drew attention, should cause every Canadian to consider carefully how much the iron and steel industry is worth to Canada, and whether he would advocate a policy which, if it does not mean ruin, means the loss of a tremendous volume of business for the Canadian mills and Canadian workmen. There is no country in the history of the world that has ever achieved greatness that has not had within its own borders a prosperous and progressive iron and steel industry.

CANADIAN WHEAT IN STATES

United States Needs Our Wheat For Export Milling Trade

The United States, notwithstanding reports to the contrary, is still a great exporting nation, as far as wheat is concerned. During the last ten years United States' exports of wheat have averaged 117,000,000 bushels per annum. This means that "Uncle Sam" exports every year an amount of wheat in excess of half the total Canadian wheat crop of 1912. It is certain, therefore, that any wheat he buys from Canada will be sold for export trade, whether sent out as wheat or flour.

When we come to consider milling of wheat in bond, we run up against something that the "free wheateers" seem completely to have overlooked. The Wilson tariff imposes upon wheat imported from Canada a tax of ten cents a bushel when it is imported for domestic consumption. But when the wheat is milled in bond and the product exported, the miller receives a rebate of 99 cent of the duty paid. In other words, on wheat imported for export milling or manufacturing purposes the net duty amounts to but one one-hundredth of the regular import, or 0.00272727 OF A CENT PER BUSHEL.

The Canadian grain grower who sells in the United States, as we have shown above, selling for export manufacturing purposes. Under present circumstances he encounters a tariff barrier of only one-cent of duty per bushel. On a shipment of a thousand bushels, one cent, therefore, the tax he has to bear is equal to one dollar. If the United States duty were taken off to-morrow, he would save one dollar on every thousand bushels of wheat he shipped into the United States. It can be seen that we would be able to send pretty big shipments into Uncle Sam's domain before the difference between tariff and no-tariff would mean anything to the individual farmer.

MINUTES OF L.I.D. 429

A meeting of the L.I.D. 429 took place in the Secretary's Office on Saturday the 18th day of April 1914. E. J. Hinkley, chairman, presided, and Councillors present were—Clark, Bailey, Hinkley, Lutz, and Cunningham. Minutes of previous meeting were read, and on motion of Clark-Hinkley they were approved—carried.

Moved by C. O. Cunningham, Hinkley, that pay sheet be paid \$100.00, and also penalty for 1913 taxes—carried.

TOWN OF PONOKA

Arrears of Tax

TAX ENFORCEMENT RETURN

In the Matter of the Towns Act, and in the Matter of the Tax Enforcement Return for the Year 1913 for the Town of Ponoka.

His Honor Judge W. A. F. LEES, in Chambers, 20th February, 1914.

Upon the Application of the Solicitor for the Town of Ponoka, and upon reading the affidavit of the said Solicitor, filed. It is ordered that Thursday, the 28th day of May 1914, at 2 p.m., at the Town Hall of Ponoka, in the Province of Alberta, be fixed as the time and place for the holding of the Court of Confirmation to confirm the Tax Enforcement Return of the Town of Ponoka for the year 1913.

N. A. D. LEES, Judge.

The Secretary-Treasurer is authorized to collect taxes on any lot or parcel of land advertised below, on condition of \$100.00 on each lot or parcel of land before date of confirmation, which date advertisement will be published.

none the next. It is not fair that the happenings of our district should appear in the Family Herald, New York Herald and British Weekly, while nothing is seen in the columns of our local paper.

The school trustees have completed some substantial improvements.

Rev. Mason will preach every alternate Sunday evening at 7.30.

Rev. Milton will discontinue services here as soon as the new church is completed.

Annex Lewis speak the week with the home folk.

A. Harper and Mr. Roberts have finished working, w. s. s.

Mr. Brown spent several days mending harness for Jenkins Bros.

The farmers' meeting at Mr. Long's was well attended. Important business was transacted.

The cream man will begin his weekly visits on May 4.

Mr. Jeffries is having reasonable good luck with his incubator.

Good Jones, of Ellis, attended service at Ponoka on Sunday.

Robin Williams has had a crew of men fixing the roads near the Jeffrey farm.

Mr. Shaw and E. Owens make a flying trip to Ponoka on Saturday.

The plasterers have been boarded with Mrs. Dwyer.

Hugh Evans is doing the farm at Mr. Roberts this year.

Ottawa, Ont., April 16.—That the women of high society and the capital is rapidly increasing, was the statement made by W. L. Scott, president of the O. T. trio Union of Statisticians' Aid societies, testifying before the anti-smoking committee this morning. His statement made the committee sit up and he was bombarded at once with a series of questions on the subject.

class are smokers, and that smoking amongst women in the capital is rapidly increasing, was the statement made by W. L. Scott, president of the O. T. trio Union of Statisticians' Aid societies, testifying before the anti-smoking committee this morning. His statement made the committee sit up and he was bombarded at once with a series of questions on the subject.
